

CABLE END CAPS

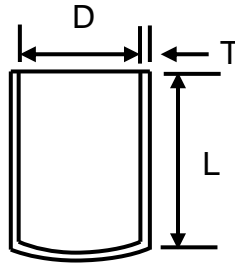

PVC dip moulding end caps gives superior quality to your products. Applications: general engineering; electrical; cable ends; and switchgear, etc. PVC end caps are strong & permanent environmental seal. Excellent resistance to weathering, moisture contamination & adverse environmental conditions. They are available in complete range cable diameter from 5.5mm to 120mm.

Features:

- Push-on type application
- Ensures perfect protection to cable ends from weathering, moisture & contamination.
- Quick & easy installation without any tools. No skill is required.
- Extremely economical and cost effective compared to Heat Shrink End Caps.

SELECTION CHART FOR PVC END CAPS

Diameter (mm)	Length (MM)	Diameter (mm)	Length (MM)
D	L	D	L
4	25	28	60
6	45	30	25
