

## HEAT SHRINK END CAPS

Heat Shrink Cable End Caps protect cable from ingress of water/moisture. The caps are manufactured from high quality cross linked polyolefin material. Compatible with most commonly used Cable Jackets i.e. XLPE, PVC, PILC or Rubber Sheathed Cable. Hot Melt adhesive lining provides permanent seal on irregular cable sheaths.

Excellent resistance to weathering, moisture, contamination and adverse environmental conditions, according to IP 68 (Ingress Protection). For pressurized Telecom cables, the end caps are fitted with non-returnable valve.
